Greater diversity of classes, both from the DPT & outside providers would nice, not bad currently, but some new options would be beneficial.

Breckenridge makes so many people sick due to the elevation, maybe think about somewhere people would be more comfortable?

This is such an awesome venue and the work you all do to provide it is much appreciated! Beaver Run is always a good venue.

Breck was great but would be open to switching it up!

I showed up about a half hour after the happy hour started at Nappers. Basically all of the food was gone. Breakfast was not much of a breakfast for Monday and Tuesday. Wednesday we went down and there was a lot more to the breakfast.

I think the Board does a great job setting this up. Love the location and accommodations.

Dated hotel, a bit of a walk to downtown amenities. Individual rooms would have been better.

Things to do other than bar hopping would be great. Maybe some hiking, biking, mountain tour, ski lift, rafting, etc. One week being stuck in a dated hotel with nothing but going downtown gets boring real quick. Maybe inform people to bring their own personal vehicles to find things to do. A lot of the third party courses

offered didn't offer much in addition to what the DPT already teaches.
Even barndominiums which isn't super complex seemed to be taught by someone with little real world experience. CATA seemed like it was to learn something new.
The only valuable class/conference I personally had was the Appraisal Forum. Knowing this in the future, I am inclined to only ever attend CATA only for the appraisal forum.
Everything else appeared to be a waste of time to me, I'm sure others have a more positive perspective.

More covid safety should have been in place for next time please.

10,000 ft elevation makes me sick every time lol.

I was surprised at how crowded the small conference rooms were this year especially with Covid.

The small lower level rooms: it would be nice if they could open up the walls when there are not classes in the rooms next door.

Conference center staff was terrible with chairs, water, organization.

Several of the class rooms felt very cramped. Would have preferred more social distancing.

Please do all days with full breakfast.

Lean on the DPT to offer more classes!!

Everything was fantastic. I was a little uncomfortable at Napper Tandy's because of the indoor close corridors and the uncertainty of the pandemic. I would have felt better about the social event if the venue had a larger outdoor patio area.

It was so great to be able to see everyone! Everything was exceptional.

Maybe find another location to have it-switch it up.

The classrooms were too full given the COVID virus. I was very uncomfortable in some of the classes.

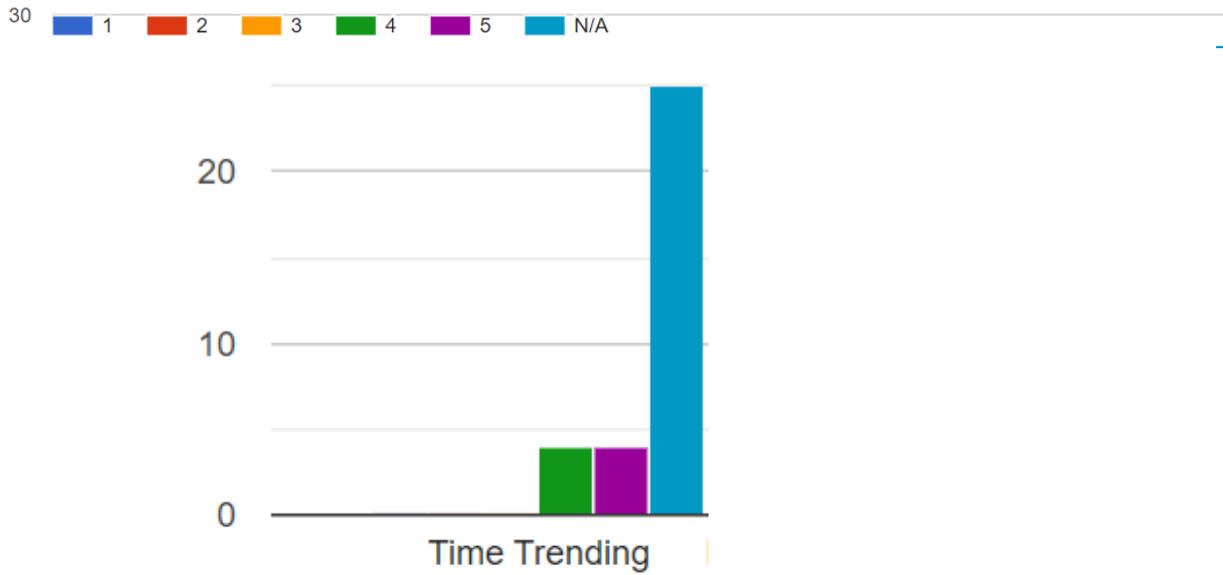

Some of the classrooms were very crowded for the number of people in the class.

Again, get the DPT to offer a few more classes.

I took both Restructuring Income/Expense Statements and Direct Cap Approach from Steve Snyder. Direct Cap was pretty redundant. Didn't really get into the meat of anything. I think that Direct Cap Approach should have been offered first and then Income/Expense Statements on Tuesday.

Assessment Workflow and Technologies Post Covid: I was so excited for this class, but it was half cadastre and half a dissertation on why drones are the new appraisal technique. The instructor has never worked in ad valorem, doesn't know the laws in Colorado and truly only has a book knowledge of what ad valorem appraisers do and it showed. I was so disappointed that I wasted my time in this class.

The title of the class did not match the course material.

I would have liked the materials printed from the instructor or available prior to print out.

This class was not at all what was described in the course description. It was so bad I have made a note to myself to make sure to never take a class with this instructor again.

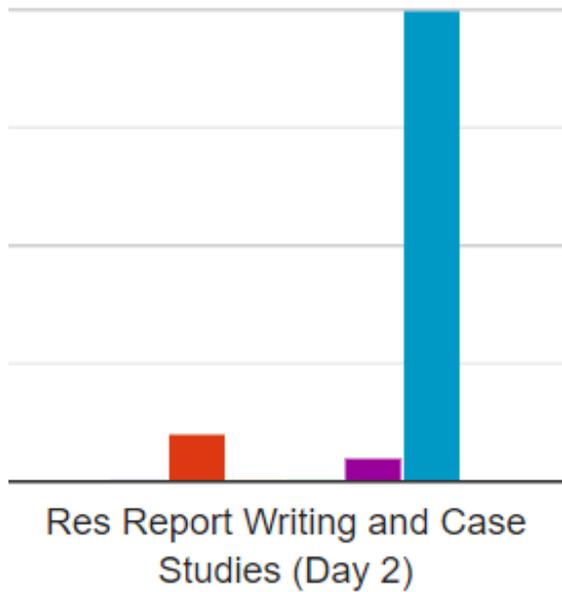

This was basically a beginning conveyance class. There was very new information regarding assessment workflow and technologies. I would not recommend it.

Was a terrific class, good theory and very good practical examples.

Helpful to have actual excels where we could do some hands on work developing adjustments rather than just theory.

Very useful. I would suggest having a prerequisite that we come with our own excel spreadsheets with our information to make it more relevant.

Great class, great instructor

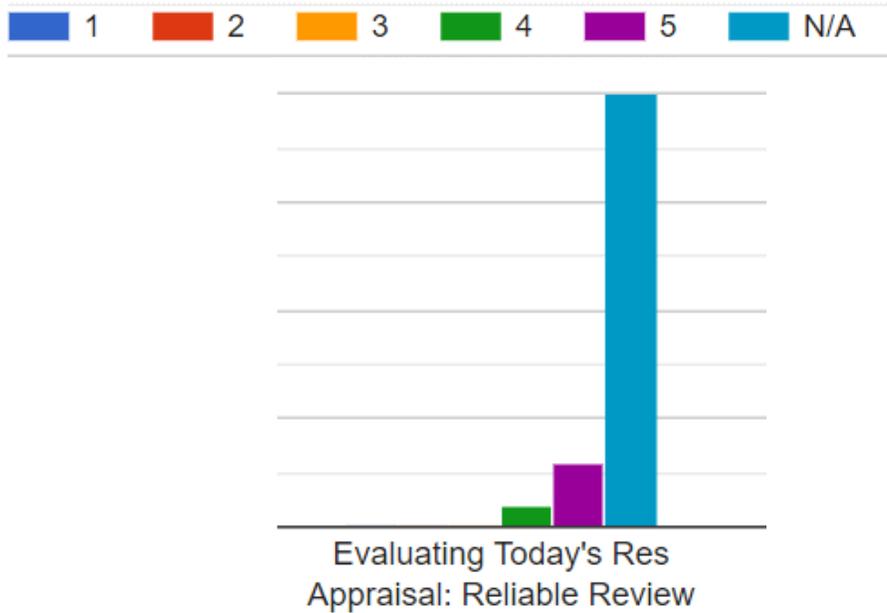

I was very excited for this class But.. The instructor was too busy talking about themselves the whole class and just had everyone play around in excel and teach themselves. She did not ever show step by step instructions on how to do anything. Which is a bummer because that could of been great information if we were actually taught how to do it.

Clearly this class was new and was/is a work in progress.

Barndominiums, AWFUL, outdated material, material not relevant to Colorado, instructor was dull and uninteresting, and I did not learn anything, teach me something, have relevant material, have material related to Colorado.

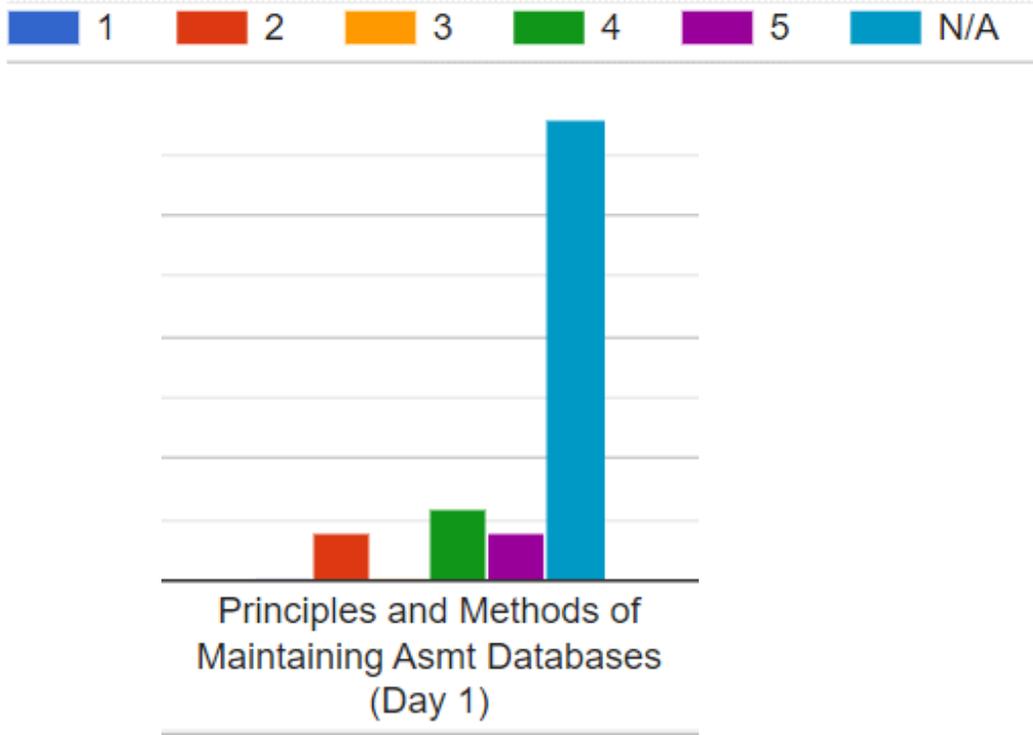

The class was overall good, wish he had gone into more detail as to how we value here in Colorado and given more examples of that.

Barndominiums was a good class but focused on cost when Colorado can only use market.

The valuing short term rentals class was okay but was rushed together last minute so the materials were delivered digitally the day before so I couldn't make copies and have with me. Had to share a laptop which was a little inconvenient. And the final case study didn't have a written answer that I could go over and refer to after leaving the class.

JoAnn's wealth of experience, in the field and teaching classes, enhanced my experience as a student. I particularly enjoyed the income approach case study.

Appraisal Forum actually had a guest speaker with much better info on the Denver market than McKissock's market disturbances and they explained their data much clearer and faster.

Instructor was absent due to health problems. He was good in the Residential Report Writing class though.

Last minute instructor did great! (Forgot his name)

I thought the instructor did well since he had no time to prepare.

The instructor was great, especially being flown in last minute.

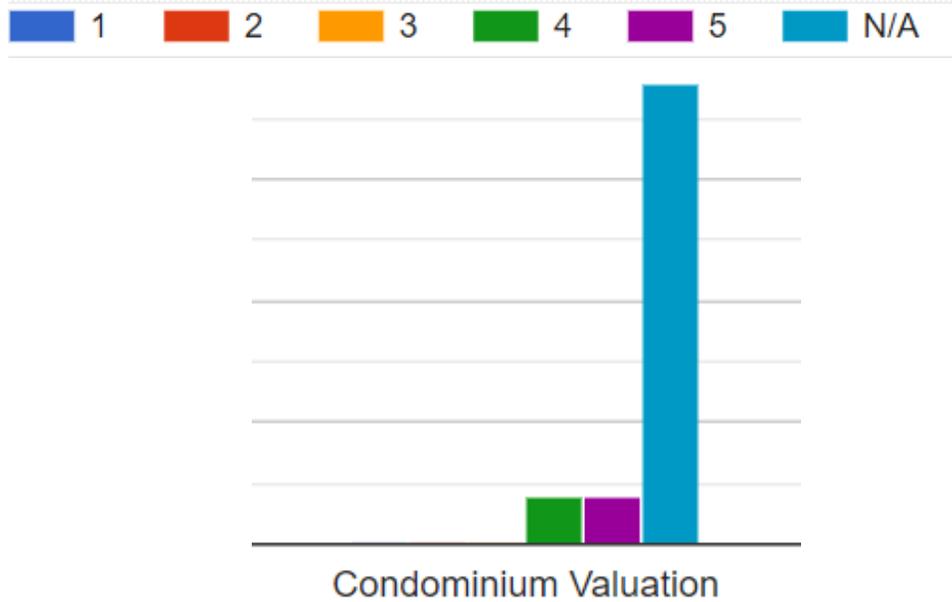

Great last minute instructor

I was expecting the class content to specifically and in-depth address the subject in the class title. Instead it was a very general and basic class on market analysis.

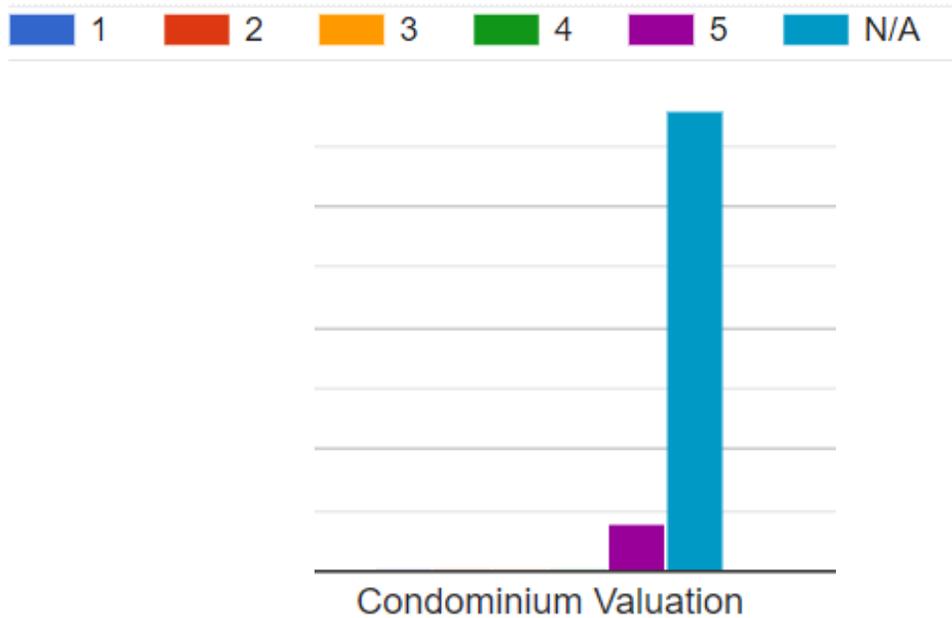

The original instructor, Rob McClelland became ill. McKissock flew in a replacement instructor, Dan Bradley.

I loved the instructor (Kevin Hayes I think) for Valuation of Commercial Properties in a Declining Market. He kept the class interesting and had a great sense of humor. I think he should come back to future conferences.

CATA's selection of classes and teachers were one of the best I have attended. Packed a lot of great information in a short time period. Relatable instructor.

15. What was your favorite part of this year's conference?

43 Responses

Getting to see everyone. Learning some new things.

Being in person for classes instead of an online format, talking with peers.

Business Meeting

Meeting other appraisers in Breck

Commercial Forum, always look forward to it

The classes

Some good new class offering.

Seeing everyone in person, meeting new folks, making connections with other appraisers, etc.

That it happened!

Interaction with other counties on how they handle things

That is was held.

Nice weather, good location, good outside provider classes.

Dinner

Enjoyed the location and class selection!

Location and networking

Just that you had it in person, and I could take the classes live. Much better than zoom.

I appreciated all the effort and worry that went into the conference. Thank you so much.

Just being back among our counter parts from other counties

Happy we were able to have an in person conference.

Tuesday Night Dinner

Dinner night

Seeing people! In person classes were great! And the french toast on hot breakfast morning.

Being in person

The fact that we had it

Location in Breckenridge, and the conference center.

The class

Taking classes in person

Being able to take courses in person and getting to connect with other counties again

The opportunity to participate in a fun, social work environment.

Seeing everybody during isolation. It was beyond great. And the Commercial Appraiser Forum.

This was my first, I have nothing to compare it to.

Just being able to see everyone!

Dinner! seeing and visiting with people in our trade

Just that we were able to participate :)

In person classes for the first time in a long time

The variety of courses offered outside of DPT classes

Back in-person

Going in person

Tuesday dinner

Dinner was awesome!

Seeing everyone! Having in person discussions.

Getting to go to in-person classes and feeling normal again.

In person !

16. What was your least favorite part of this year's conference?

24 Responses

A lot was still closed down in town, understandable, but obviously not a normal year. It would be nice to see some other kind of activity available at the hotel for those that don't want to drink. Cornhole tournament? Pool party?

Hotel is a little run down especially if you don't get a renovated room.

CATA is always a great source of info.

90% of it.

The elevation.

That 99% people were not wearing masks and it felt like no effort was made to promote them.

Location

Covid apprehension.

My Name Badge! "Retired" had everyone asking me if I was bragging or complaining.

The weird eggs on hot breakfast morning.

Cramped classes

Nothing really.

There was not very good signage/communication as to where everything was when first coming into the resort on day one.

Monday Irish Pub

I could not attend more days

My classes which is sad.

I was limited to 3 days of classes and not 4. Budget constraints for our office on who could go.

17. What classes and/or Instructors would you like to see at next year's conference?

23 Responses

More commercial appraisal-oriented classes.

Water Law, McKissock or other classes that count towards CE and QE

Commercial classes

The instructor for Barndominiums and Complex res was very good.

Mobile Home Class

Any of the DPT folks/classes are great and continue to have relevant information to offer.

Vacant Land, Valuation of Vacant Land Present Worth, Sales Confirmation, and something that discusses Industrial property.

More non DPT classes please. Keep up the variety!

Curt Settle, Rick Stuart.

Joann Apostle

Lori DeCrow & Luke Ott

I would like to see a class or forum similar to the DPT Law Seminar to focus on new or recent property tax legislation.

Harry Fuller!

TIF class, Certification and Abstract class, more admin classes if possible.

Commercial Appraiser Forum w/ Joel Cuthbert. Kevin Hayes - any class. I would like to also see an Ag Appraiser Forum (half day maybe).

An advanced commercial class

More about modeling

More in depth title conveyance

The guy from Florida who did Barndominiums was awesome. I appreciate DPT showing up.

Kyle Hooper was great

Keep the commercial classes coming! Maybe some land valuation classes also.

JoAnn Apostol great instructor

Great job organizing this event.

Keep it going.

Would have been better to have been sent this survey immediately after CATA.

Great conference!

Good job to all who put together the conference, THANK YOU!

Again, just thanks for having it in person. It was great.

Well done especially given the covid obstacles you had to encounter.

It was a lovely conference.

Hopefully the 2022 conference will be COVID free.

**Thank you for doing what you do for us! I appreciate all of the hard work and
time it took to put the conference together.**

Had fun!

Fantastic job!

Hotel is awesome.

Great selection of classes - liked the new options.

Thank you for all your work CATA Board!

It was great to be back to "in person" learning!

Serve a real breakfast, we are all away from home, have real food everyday for breakfast.

The whole feel was liberating to be back at CATA without masks.

Great time and learned something new!

21. Any additional comments regarding the 2022 CATA Conference?

14 Responses

Keep up the good work!

See you there.

Thanks for all the time and effort put into organizing this! I look forward to CATA every year!

Can't wait!

I think that although some people don't care, it would be nice if masks were required in the smaller classrooms. Or at least "encouraged".

Make it entertaining and have more involvement to build social contacts. It lacked severely in both subjects. Team building exercises might help... Honestly, I probably will never go again so you can disregard my input.

Looking forward to it. Hope the DPT participates more in 2022.

Can't wait for it.

Don't go with the Irish Pub again.

Thank you Karen for a great run. Never give up!

The food was good on the buffets in the morning were good and Spencer's had good lunch variety that was cheaper than the 3rd floor store/kitchen sandwich or slice of pizza. Condos were in average condition, mine was a bit dated but functional.
